Source: 2006 Annual Reports submitted by grantees to the Foreign-Trade Zones Board, U.S. Department of Commerce. NOTE: All categories include both general purpose and subzone activity. Annual volume is considered to be received merchandise from the FTZs, including goods of domestic origin and foreign status, as well as zone-to-zone transfers.

General-Purpose FTZs (typically an industrial park) can be established within 60 miles or 90-minute drive of the outermost limits of a port of entry.

An FTZ Subzone (single-user facility) can be established in some cases beyond these limits with approval from U.S. Customs and Border Protection.
